

Pest Control - Risk Assessment

This risk assessment is intended to evaluate how vulnerable a building is to rodents. The assessment is intended to guide decisions about rodent prevention and exclusion work, and prioritize areas for rodent control. It should be completed at least twice annually.

1 YOUR DETAILS	2 BUILDING DETAILS
Today's date: <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> yyyy-mm-dd Staff name: <input style="width: 100%;" type="text"/>	Building identifier: <input style="width: 100%;" type="text"/> (e.g. BLDG12345) Building name: <input style="width: 100%;" type="text"/>

3 RISK FACTORS EVALUATION Assign a score to each category, then calculate your total /20.

OBSERVATION CATEGORY		SCORE	ADDITIONAL NOTES
A	Sighting of rodents, alive or dead (3/0) 3=yes 0=no	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
B	Rodent droppings present (3/0) 3=yes 0=no	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
C	Signs of rodents present, including burrows, gnaw marks, rub marks or holes (2/0) 2=yes 0=no	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
D	Rodent conducive landscaping: dense ground cover/tall grass, close to building (3/2/1) 3= dense vegetative ground cover in close proximity to building 2= less dense cover, further proximity 1= limited ground cover	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
E	Structural vulnerabilities (3/2/1) 3= older buildings, visible gaps in walls, corners, doors, no proofing 2= worn proofing or cracks, potential for vulnerabilities 1= new, solid construction and/or rodent proofing	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
F	General cleanliness (3/2/1) 3= poor cleanliness 2= medium cleanliness 1= good cleanliness	<input style="width: 30px; height: 30px;" type="text"/>	----- -----
G	Food stored and/or served (3/2/1) 3= food stored or served, e.g. concession, restaurant, etc. 2= food consumption area, e.g. picnic area, potentially daycares 1= limited food, e.g. washrooms, utility buildings, etc.	<input style="width: 30px; height: 30px;" type="text"/>	----- -----

4 TOTAL SCORE MIN. = 4 / MAX. = 20 Refer to following guidelines to interpret your score.

4-8 = LOW RISK, continue prevention measures 9-14 = MEDIUM RISK, control measures required, combined with prevention 15-20 = HIGH RISK, control measures required, combined with prevention	<input style="width: 40px; height: 40px;" type="text"/>	Previous Score and Date: <input style="width: 100%;" type="text"/> (e.g. 15/20 on 2019/04/15)
